

*Hope is the thing with feathers that perches in the soul,
and sings the tunes without the words, and never stops at all.*

~Emily Dickinson

winter boy with hope birds by Christian Pendelio

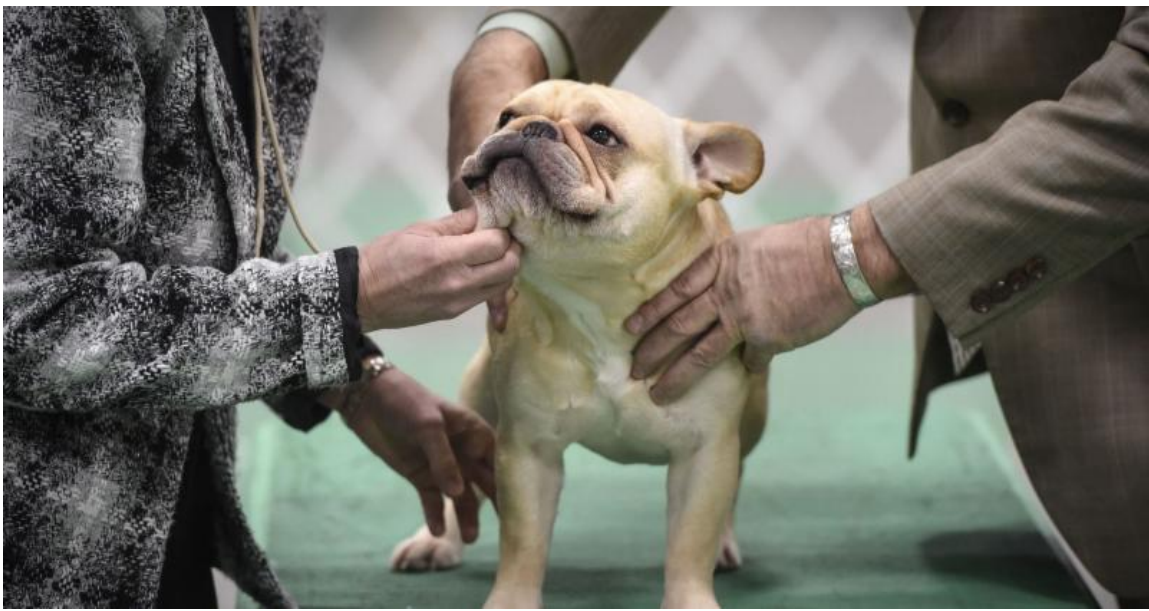

Hope is when we have something to look forward to
with desire and reasonable confidence.
It is the hard to define quality that enables us to keep going
in the direst of circumstances.
We keep moving forward with positivity because hope
allows us to envision a better future.
Hope is the answer amidst despair.
Hopelessness can be replaced with passion and optimism.
This week, help someone in your life feel hopeful.
Remind them and yourself, that it's never too late to try again,
and that things do get better with time.
Keep your hope strong and never give up.
Hope springs eternal. (Pope)
